# History

The company was founded in 1970 as a sales agency for U.S. Plywood and Champion Paper & Intermills Intl.

During this period the main products were plywood, panels and louver doors.

Building Products GmbH was established 1977 in Königstein, close to Frankfurt.

In the early 80ies we started with solid wood furniture from South Africa and Brazil. Our main customers were home centers, wood traders and furniture importers in Germany, France, Austria and Switzerland.

In ??? we extended our activities to China, Taiwan, Indonesia and Vietnam, in close cooperation with our manufacturing partners and offices.

Currently we are selling about 2.500 containers per year to our European customers.

We are a team of 8, our spoken languages are German, English, French, Spanish, Portuguese, Swedish and Finnish.

Our lines are designed and manufactured by highly qualified specialists, according to our customers' requirements, our quality control in the factories guarantees an excellent standard.
